IFB #700 Addendum II (Q&A)

February 18, 2013

A response to questions received will now follow:

1. Question 5 about spraying banks?

No, that's not a good idea because then you open up the possibility for erosion like at the embankment behind Administration (2241 Langhorne Road). Please weed eat the entire bank every two to three weeks to maintain the appearance because it's better to have something growing on it rather than nothing at all for a period even if it is mostly weeds. Now this is a lot more labor intensive so you may want to know this when figuring out your bid.

Direct any questions regarding this amendment to Jay Goding at (434) 847-8050 or jay.goding@horizonbh.org
